

Annual PF Magazine Shotgun Review & Chapter Committee Life Member Event

Location: Brownell's Big Springs Shooting Complex

Date: Wednesday, May 28th, 2014

Overview

Have you ever thought about making a lifetime commitment to Pheasants Forever? Do you want to do more for habitat conservation and are not sure of the next step? Becoming a LIFE MEMBER of The Habitat Organization is an easy way to accomplish these goals, and in the coming month of May, Iowa staff is providing a unique opportunity to do so by being part of our 2014 PF Magazine Annual Shotgun Review!

Each year leading up to National Pheasant Fest and Quail Classic, Pheasants Forever hosts the Annual PF Magazine Shotgun Review- a day to conduct field tests on the best of the new shotguns launched by major brands throughout North America and Europe. This day will also serve as an introduction of Pheasants Forever's 2015 National Pheasant Fest and Quail Classic being held in Des Moines, IA, February 20th - 22nd.

Participants

Many chapter leaders have expressed interest in a Life Member drive for the state of Iowa, and our staff has accommodated this request with a spectacular opportunity: The 2014 Annual PF Magazine Shotgun Review will be reserved for 20 chapter leaders who wish to become NEW life members, and conduct field tests on different brands of shotguns to be reviewed in the Pheasant Hunting Preview issue of Pheasants Forever Journal, and introduce our 250,000 readers to the finest new shotguns in the marketplace. This day will also conclude with dinner/cocktails for participants, and two tickets to the 2015 National Pheasant Fest and Quail Classic Exhibit Hall
